

SATISFY YOUR CUSTOMERS WITH FLEXIBLE CONSTRUCTION BILLING SOFTWARE

Create Progress Billings, Unit Billings, Work Orders, Daily Field Reports,
All At Your Fingertips

ProjectPro is a construction accounting software that enables users to bill their customers based on the progress of the project. By using a smart platform like ProjectPro, staying ahead of billing milestones is easier.

With ProjectPro progress billing feature, construction professionals can:

- ✔ Create progress invoices quickly and easily
Stay ahead of your business cash flow by getting paid as the project progresses.
- ✔ Share clear and easy-to-understand bills
Contract billing lines become the “Schedule of Values” for billing whether by % Lump sum or unit.
- ✔ Keep track of project payment applications
When the payments are made on time, you’ll stay ahead of construction cash flow demands.

MANAGE PROJECT BILLINGS FOR BETTER CASH FLOW IMPROVEMENT

The progress billing feature will help you manage customer invoicing based on percentage, units complete or lump sum contract billing lines. These contract lines can be scheduled and managed easily.

Manage all your Construction Billings Aspects at a Single Integrated Platform

AIA – Billings

Create AIA billings based on material & job calculations with ProjectPro. Work on billing type of %, Unit, or L/S (lump sum) through transaction lines that are either G/L accounts, items, or resources. G/L accounts, items, or resources.

Unit Billings

ProjectPro helps you locate your subcontract data based on job reports. This makes it easy for both the project owner and the construction company to keep a check on every task related to the project.

Time & Material Billings

Create bills based on time & material consumption and create job price rates for labor and equipment. ProjectPro can help you track markup % for materials, subcontract, and other cost categories.

Work Order

ProjectPro gets easy and smooth access to work order, where you can execute costs related to labor time and material. Brings a combination of establishing markup percentages by G/L accounts, resources, and items.

“ We've been using ProjectPro for over ten (10) years now and it has helped us to manage our jobs and accounting operations from two locations and still all within one database. We have been able to keep our project costs current and generate our job billings timely.
