

Improve your Field Services Productivity

Manage Work Orders & Service Requests With Increased Productivity

ProjectPro is a construction accounting and project management technology designed for service managers. Experience a new way to manage service tickets or job work orders for field and service operations.

Service Management

Using the power of Microsoft Dynamics Business Central, ProjectPro provides necessary features such as configuring a job and scheduling a resource, as well as providing the information needed to manage budgets and monitor progress.

Contract Management

ProjectPro helps to keep track of upcoming expiries for contracts and efficiently plan for them in advance. Regulate processes in an organized manner and periodically check for any red flags with contracts. This will help make informed decisions.

As a service manager, you should have a good overview, not only of individual jobs but also of the allocation of employees and other resources being used in all projects.

ProjectPro with its extensive ERP and service management capabilities could help service managers to take maximum control of the field leaving no stress of task failures or workflow obstruction.

Service management

Improve Cash flow, Get Paid Faster, and get more Done with ProjectPro

Build a better service business with cloud-based service management tools.

Take control of your service business with time-saving automation, invoicing, and remote access. Also, set up resources, time sheets, and jobs on a single integrated platform.

Create jobs, assign job tasks, and prepare job planning lines. Also, allocate resources to jobs and manage the same with the right cost.

Budget for resources to be used in jobs and compare actual items and resources to improve future project quality and cost efficiency.

Purchase supplies for a job, either on purchase orders or invoices, and record item and time usage. And estimate the financial value of ongoing jobs.

Contract Management

Track Ongoing Compliance Status to Minimize Business Risk with ProjectPro

Get advanced contract amendments & management with ProjectPro powered by Business Central

ProjectPro provides a 360-degree view of your contracts and all relevant connected records and entities. With Business Central, you can create workflows easily to match your business process.

Save your time and increase efficiency by tracking contracts with comprehensive charts, views, and advanced filters.

Configure your personalized dashboard and customize the reports according to your construction project needs.

Stay compliant with detailed contract audits. Also, get control over the confidentiality of your contract records.

“ We've been using ProjectPro for over ten (10) years now and it has helped us to manage our jobs and accounting operations from two locations and still all within one database. We have been able to keep our project costs current and generate our job billings timely.

Janet Beaton
Office Manager, GRIFFIN INSULATION
